

Franco Juárez

Full Stack Developer · React, Next.js, TypeScript, PostgreSQL

Bahía Blanca, Argentina · Remote or local hybrid · franjuache@gmail.com · +54 291 5116477 · francojuarez.dev · linkedin.com/in/francojuarez

PROFILE

Full-stack development and infrastructure for staffing, cosmetics, architecture, and hospitality companies. 3+ years with React, Next.js, TypeScript, Node, and PostgreSQL. Remote from Bahía Blanca; clients in Argentina, the USA, and Canada.

EXPERIENCE

Independent Full Stack Developer · Homework

Nov 2023 – Present

Own brand. Websites and web applications.

- **MedRoster** (Magnus HRS, Canada) — 2025–2026. Freelance full-stack development on a staffing operations platform in daily use (~40 people): applicants, clients, orders, multi-tenant architecture. Alongside Paula General. Next.js, TypeScript, PostgreSQL (Supabase), Vitest, Playwright.
- **Magnus HRS** (corporate site) — 2025–2026. WordPress corporate website for the same Canadian staffing agency (separate from MedRoster): custom components, conversion focus, and basic SEO.
- **Poise Digital Studio** — Jan 2024 – present. Full-stack development and infrastructure: Next.js + Strapi, headless projects (WordPress + Next.js), VPS, Nginx, PM2, monitoring.
- **Valuge** — Platform for a dermatological cosmetics lab: catalog, pharmacy locator (Google Maps), PDF coupons, admin, JWT, and Zod. Next.js, PostgreSQL, Prisma, VPS, Nginx, GitHub Actions, Cloudflare.
- **Kerf Collective** — Next.js site for a custom cabinetry studio in Florida.
- **GTImports** — Internal inventory app (React + Node/Express, MercadoLibre webhooks). In progress.
- Ongoing maintenance and features on client products and sites (deploys, incidents, improvements).

Web Design & Development Manager · Resto Experience

Mar 2024 – Nov 2024

Atlanta, USA · Remote · Restaurant marketing agency. Previously WordPress developer (Jun 2023 – Mar 2024).

- Led a team of 5 developers and designers for hospitality clients.
- Delivered 25+ sites on time and on budget, coordinating with other teams.
- Built maintenance that reduced production incidents.
